Dhaka, Aug 23 (UNB) - A seminar will be held on Apparel Tech-Up technology at Radisson Blu in Chittagong on Aug 26.

In this seminar, organized by ThreadSol, garment manufacturers, technocrats and top technology providers will explore a range of subject related to the future of garment manufacturing all over the world.

"With the advent of Industry 4.0, technology can be identified as the latest mechanism of automation and data exchange in manufacturing. There is a strong need of technological advancement in this sector which will enhance vertical integration of all the layers in the apparel-manufacturing sector," said CEO and Co-Founder of ThreadSol Masanj Ganguli.

The discussion will also include issues of material costs and flexibility with respect to the garment industry along with practical approaches for designing and building intelligent enterprises to handle the enormous garment industry of Bangladesh.

Senior Partner of Global Sales in ThreadSol Anas Shakil said "Factories are always striving to make a difference that will attract international buyers in this highly competitive environment. Garment factories in Asia have made impressive progress in increasing their industries' productivity."

To register for the event please call +880-1884-610-973 or mail marcom@threadsol.com.
